Title: On the virtues

Author: Xeruxka the Sage

The Virtues are a means of creating peace throughout the land.They allow people to live peaceful, happy lives.Unlike some of those who oppose the virtues, who approve of the killing of the innocent.Lord British is very noble.Though some may say that he is simply trying to control the land through the virtues, and that the construction of these shrines are useless, I disagree.Without Lord British, the land would be in a state of anarchy.Real freedom would not exist, simply those who have enough power to manipulate the mind of common men.In a land of the virtues, mothers may raise their children peacefully, and people may live their lives peacefully.Though, those who oppose the virtues cause discord. Follow the virtues, and you will live a life of inner peace.Follow the virtues, either as

a merchant, or a
noble.I encourage you
to follow the virtues.

Xeruxka the Sage of
Compassion
